

## **Infection Control Policy**

The symptoms include:

- Fever greater than 100 F. or 37.7 C
- Severe coughing – child gets red or blue in the face
- High-pitched croupy or whooping sounds after coughing
- Difficult or rapid breathing – especially in infants
- Yellowish skin or eyes
- Pinkeye – tears, redness of eyelid lining, followed by swelling and discharge of pus
- Unusual spots or rashes
- Sore throat or trouble swallowing
- Infected skin patches
- Crusty, bright yellow, dry, or gummy areas of skin – possibly accompanied by fever
- Usually dark, tea colored urine – especially with a fever
- Grey or white stool
- Headache and stiff neck
- Vomiting
- Severe itching of body or scalp or scratching of scalp

It is imperative that we all work together to keep all of the children who attend Welborne as healthy and happy as possible. We thank you for your cooperation.
